

# WE HAVE A BRIGHT IDEA

## Introducing CuraView LED by Curaplex®

We asked ourselves if the benefits of a disposable and a reusable could be combined. Our solution – the CuraView LED by Curaplex®. A single-use laryngoscope that combines the quality and strength of a reusable laryngoscope with the convenience and dependability of a disposable.

### Vivid Light

Regardless of the patient scenario and urgency, CuraView LED provides advanced ultra-white LED lighting that you can count on for optimal visibility during intubation.

### High-Quality

The CuraView LED is designed with an industrial strength blade and no-slip handle that inspires confidence during your everyday and emergent intubations.

### Sterile

Eliminate the risk of patient to patient cross-contamination AND factory embedded contamination with a COMPLETELY STERILE single-use solution.

### No Hidden Cost

Straightforward pricing eliminates the hidden cost associated with reusable laryngoscopes, such as replacement parts, cleaning supplies and labor.

*CuraView LED by Curaplex® offers a wide range of single-use laryngoscopes that help to minimize the risk of cross-contamination and empower first responders to provide patient care with confidence and precision when it matters most.*
